(g) Upon written request of any parent of a student living within one and one-half (1 ½) miles of the nearest accessible route from the school in which such student is enrolled, the LEA shall conduct an investigation to determine if any special hazard zones are present within such area. If the LEA determines a special hazard zone is present it shall submit its findings to the commissioner of transportation. Unless the commissioner of transportation rejects such findings within sixty (60) days of their receipt, state transportation funds shall be provided for the school transportation needs of those students living within such special hazard zone.
